

Multi-location

by TrueBeacon, Inc

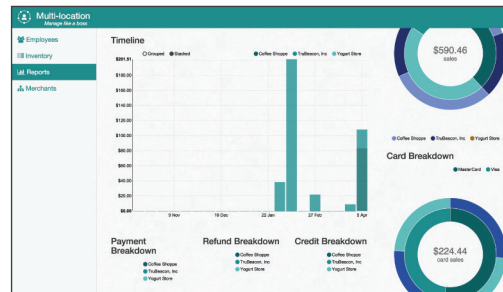

Manage like a boss.

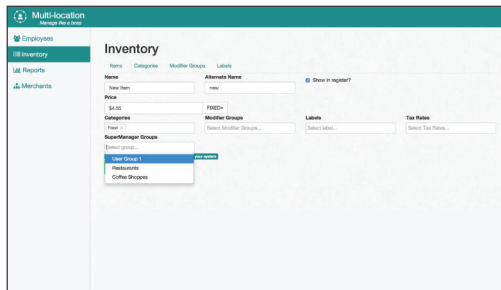

Make real-time pricing, menu and inventory changes across the entire chain, individual stores or a defined group of stores. Create reports. Update inventory. Manage employees across the chain or at a store level. This powerful app creates a hierarchical structure that enables numerous features desired by multi-location merchants such as franchise organizations (QSRs, restaurant chains) and retailers.

Enable Enterprise-level functionality within Clover

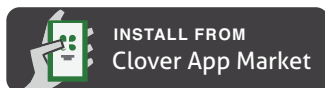

Gain further insight into business performance with smart & intuitive reports

Drastically simplify the management of multiple Clover-based stores at once

Organize and categorize your stores using Merchant Groups.

Use Merchant Groups to help manage a defined group of stores easily
