

OwnerListens

by Owner Listens Inc.

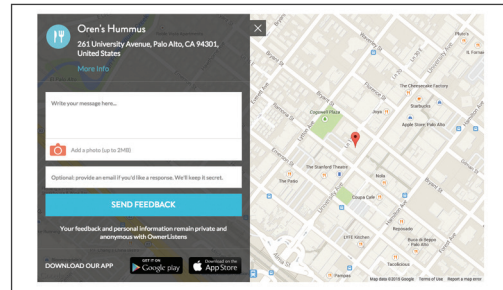

Use OwnerListens to start a private conversation with your customers, prevent bad reviews & hold employees accountable for their service.

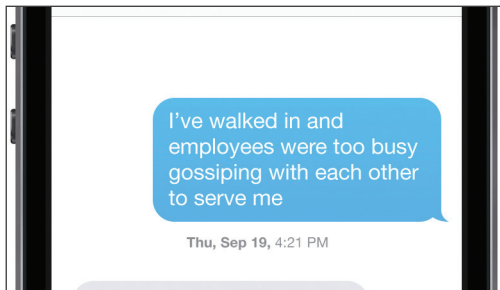

Give customers an easy way to communicate with you via email, instant messaging or print receipts. You or your managers can reply immediately to intercept potential bad reviews and answer questions about your product or service. Our dashboard and reports help monitor your online reputation and hold employees accountable for events occurring on their watch.

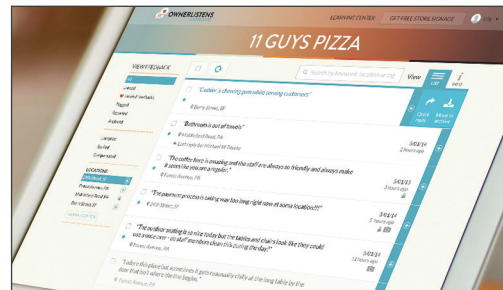

Install the OwnerListens app from the Clover App marketplace

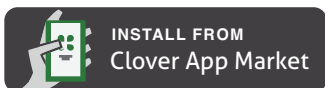

Customers can safely send you a message immediately after their purchase and you can reply. We keep their personal info private.

You and others in your organization, can receive messages via email or SMS. No app needed. Respond immediately for best results.

Reply to messages, generate reports, change settings and add additional responders from the dashboard, accessible on any browser
