# Pizza Builder
by Merchantech, Inc

Easily manage the pizza ordering process with a fast and user friendly interface
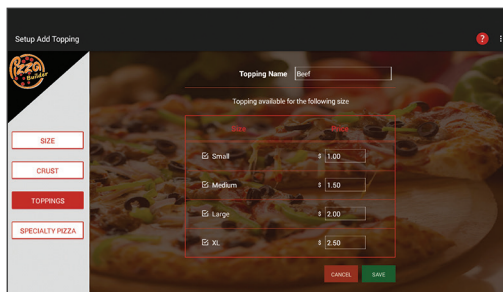

Pizza Builder is a pizza ordering screen which simplifies the ordering process by minimizing errors, reducing touches required to create a pizza with toppings, sizes and crusts.

Easily setup your own specialty pizza's then modify them (Ex: Supreme, Combination, Veggie)

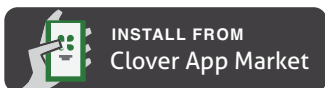

Add toppings to quarters, halves or the whole pizza

Topping prices can be set depending on the size of the pizza

Easily select double, triple and light toppings
