

Tattle
by Tattle

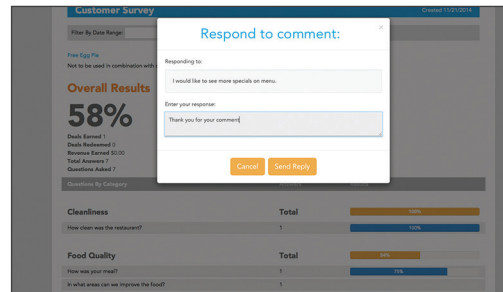

Tattle's mobile app customer comment card provides merchants with private feedback into the areas of their business they care about most.

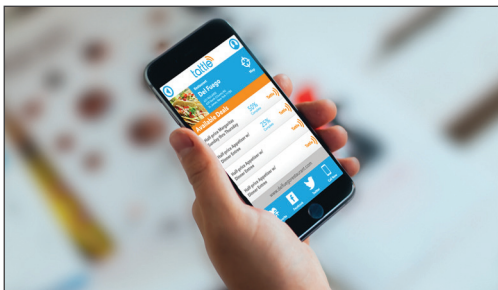

Tattle is the mobile app version of the customer comment card, empowering merchants to obtain private, real-time and unbiased customer feedback in its most actionable form, while customers are encouraged to return for repeat purchases through deals.

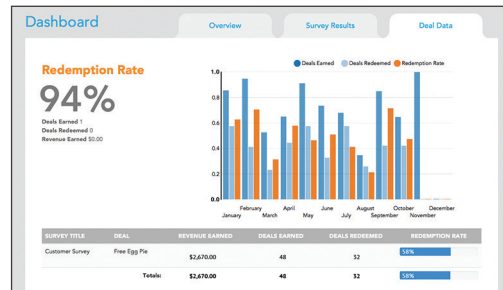

Obtain private, real-time, and actionable feedback insights about the areas of your business that you care about most

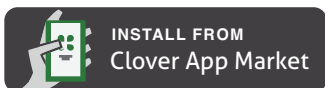

Seamlessly respond to customers' private comments

Encourage customer feedback and repeat purchases through incentives

Track all customer retention and revenue data all through your Tattle platform
